ACADEMIC POSITION

Pittsburg State University

Assistant Professor, Department of Psychology and Counseling

August 2026-present

EDUCATION

University of Georgia

Athens, Georgia

Doctor of Philosophy (PhD) in Educational Psychology

Dissertation (defended): Using Explanatory Rasch Models to Evaluate Surveys of Food Insecurity

(Committee: George Engelhard Jr. (Chair); Seock-Ho Kim; Zhenqiu (Laura) Lu; Stacey M Neuharth-Pritchett)

May 2026

GPA: 4.00/4.00

Master of Science in Statistics

May 2026

GPA: 4.00/4.00

Miami University (Ohio)

Oxford, Ohio

Master of Education in Educational Psychology

May 2021

Thesis: A Rasch Analysis of Teaching and Learning International Survey 2013

(Advisor: William Boone)

GPA: 3.95/4.00

Michigan State University

East Lansing, Michigan

Bachelor of Arts (BA) in Psychology

May 2018

Minor in *Leadership Organization*

GPA: 3.54/4.00

RESEARCH INTERESTS

Psychometric analysis and quantitative methodology

Rasch measurement theory (RMT) and item response theory

Explanatory item response modeling (EIRM)

Statistical methods for behavioral and health research

Applied statistical modeling and collaborative research

TEACHING

Pittsburg State University, Department of Psychology and Counseling Pittsburg, Kansas
Assistant Professor Fall 2026

- PSYCH 389: Research method in Psychology I (Intro to Statistics)
- PSYCH 263: Developmental Psychology
- PSYCH 357 98: Educational PSY (Asynchronous)
- PSYCH 357 99: Educational PSY (Asynchronous)

University of Georgia, Educational Psychology (Quantitative Methodology) Athens, Georgia
Graduate Teaching Assistant Nov 2021- May 2023

Courses Supported: Applied Correlation and Regression Methods in Education, Applied Analysis of Variance Methods in Education, Applied Statistical Methods in Education, Theories of Educational Measurement, Applied Quantitative Analysis in R, Rasch Measurement Theory

- Assisted with in-class laboratory activities, graded assignments, and held office hours to provide direct support to students. I also reviewed and provided feedback on students' final project research papers.
- Delivered lectures per course and presented my own research to the class.

RESEARCH EXPERIENCE

Research Data Analyst (Grant-Funded) – Mental Health Outcomes Measurement & AI/HCI
StratisWell, partnered with Aevum Health Initiative Oct 2025-July 2026

- Estimated prevalence of stress, technology readiness, and technology acceptance among pregnant/postpartum women.
- Evaluated EPDS measurement performance using Explanatory Rasch Models, examining subgroup differences (rural/urban, religion, marital status, age) and contextual reporting patterns in maternal mental health research.

Graduate Research Assistant- R Shiny App Development Project

University of Georgia Aug 2025- May 2026

- Acquired and applied R Shiny skills to develop and deploy interactive web applications.
- Converted the *odr* and *anomo* R packages into a user-friendly and dynamic Shiny application, making the tool more accessible and intuitive for other researchers.

Graduate Research Assistant- Instrument Validation Project

University of Georgia Aug 2024-May 2025

- Validated and refined the Regulating Emotions in Parenting Scale (REPS), a novel, concise self-report measure for assessing parent emotion regulation.

- Conducted confirmatory factor analysis (CFA) to investigate the latent factor structure, ensuring the construct validity and dimensionality of the REPS.
- Established the measurement invariance of the REPS across demographic variables (e.g., gender, race, ethnicity, and age) under a structural equation modeling (SEM) framework, demonstrating its broad applicability and fairness across diverse parent populations.

Graduate Research Assistant- Student Learning Growth Report Project

University of Georgia

Aug 2023-Aug 2024

- Conducted comprehensive psychometric evaluation of K-6 Student Learning Objectives (SLO) assessments using classical item analysis (CTT) and Item Response Theory (IRT) models.
- Used simulated data to analyze, validate, and support the interpretation of student growth percentiles for elementary-grade reporting.
- Produced multi-level K-6 growth reports (student level, classroom level, and school level) and translated results into actionable insights for teachers and administrators.

Graduate Research Assistant- Pre-K School Readiness Factors Project

University of Georgia

May 2022-Jan 2023

- Managed and analyzed multi-source Pre-K datasets in R/SPSS on school readiness, classroom environment, perceived competence, social acceptance, and coping resources.
- In collaboration with Dr. Stacey M. Neuharth-Pritchett, applied a two-stage nested design and multinomial logistic regression to test how math ability, language ability, and classroom risk jointly predict Pre-K readiness (supports a forthcoming manuscript).
- Prepared reports translating statistical findings into clear, actionable insights for early childhood educators and program stakeholders.

Student Assistant- College Town Project

Miami University

2019 Aug-2021 May

- Designed and implemented surveys using Qualtrics and collected data from participants.
- Conducted and documented online interviews with research participants.
- Conducted qualitative and quantitative analysis on primary data using SPSS.
- Contributed to the preparation of progress reports and summaries of project findings.

ORGANIZATIONAL LEADERSHIP AND PROFESSIONAL SERVICE

Editorial Board

Editorial Board Member, *Journal of Applied Educational Research and Evaluation* (JAERE), 2026-present

Peer Review

Conference Proposal and Proceedings Review

- Student Reviewer, American Society for Engineering Education (ASEE) Annual Conference: 2027 cycle (2026), 2026 cycle (2025)
- Student Reviewer, American Educational Research Association (AERA) Annual Meeting proposals: 2027 cycle (2026), 2026 cycle (2025), 2025 cycle (2024)

- Student Reviewer, National Council on Measurement in Education (NCME) Annual Meeting proposals: 2027 cycle (2026), 2026 cycle (2025), 2025 cycle (2024)

Other Review

- Expert Panel Reviewer, M.Ed. Applied Projects, University of Georgia, 2024

Conference Service

Session Chair, AERA Annual Meeting, 2024

- Modern Psychometrics Methodologies and Applications. AERA Division D: Measurement and Research Methodologies
- Exploring Equity and Fairness in Educational Measurement. AERA Division D: Measurement and Research Methodologies
- Regression Modeling for Educational Research. AERA SIG: Multiple Linear Regression: The General Linear Model
